

## Définitions des données Japon

Dans les données accessibles sur le portail suivant <https://www.e-stat.go.jp/en/regional-statistics/ssdsvview/prefectures>, il est possible de voir le nombre de *in-migrant from other prefectures (all nationalities)* et de *out-migrant to other prefectures (all nationalities)* pour chacune des préfectures.

Voici la définition de chacune de ces variables:

- The number of in-migrants refers to the “number of in-migrants” in the Basic Resident Register Population Movement Report (hereinafter referred to as the “Report”), which refers to the number of people who moved from other prefectures or municipalities to the area of the prefecture or municipality concerned and changed their address.
- The number of out-migrants refers to the “number of out-migrants” in the Report, which refers to the number of people who moved to another prefecture or municipality across the border of the prefecture or municipality concerned. However, this number is calculated by the Statistics Bureau based on the previous address of the in-migrants (by prefecture and municipality), and does not necessarily match the number of people who have been issued a moving-out certificate as stipulated in Article 23 of the Enforcement Order of the Basic Resident Register Act ( hereinafter referred to as the “Enforcement Order”). The number of in-migrants and out-migrants includes both Japanese and foreigners. The number of in-migrants and out-migrants (by gender) is collected for each year.

### *Number of foreign residents*

It refers to the number of foreign residents according to the “Statistics on Foreign Residents,” which includes mid- to long-term residents and special permanent residents. The total number of foreign residents and the number of foreign residents by nationality and region are collected here.

- [Medium- to long-term residents]

Foreigners residing in Japan with a status of residence under the Immigration Control and Refugee Recognition Act who do not fall into any of the following categories (1) to (6). (1) Persons with a period of stay of “3 months” or less (2) Persons with “Temporary Visitor” status (3) Persons with “Diplomatic” or “Official” status (4) Persons specified by the Ministry of Justice ordinance as equivalent to (1) to (3) (staff members of the Taiwan-Japan Relations Association’s Japanese office or the Permanent Mission of Palestine in Japan who have been granted “Designated Activities” status, or their families) (5) Special permanent residents (6) Persons without a resident status

*Foreigners total* This refers to people with foreign nationality among the total population of the census. Here, the total number of foreigners and the following countries are collected:

- Korea, North Korea, China, and the United States .
